

CS342

- Welcome to CS342!
- Your TAs
 - Dian Chen (dchen@cs.utexas.edu), OH: Mon 11am-noon, GDC 1.302
 - Ankur Garg (ankgarg@cs.utexas.edu), OH: Mon 4pm-5pm, GDC 1.302
- Section Meets
 - Fri 10am-11am/11am-noon, ECJ 1.204

Agenda

1. Installation Guide
2. PyTorch code walk through

Installation Guide

1. Python 3.5/3.6 (or Conda)

- a. Install Conda at <https://www.anaconda.com/download>
- b. Create conda environment: `conda create -n cs342 python=3.6` or
- c. Install Python 3 from <https://www.python.org/>

2. PyTorch 0.4

- a. Install PyTorch at <https://pytorch.org/>. Choose “None” for the CUDA selection. (If you own a computer with Nvidia graphics card and have Nvidia driver/CUDA installed, feel free to choose other options)

3. numpy

- a. Pip install them, or if you use conda they should come with env already
